

**Translation Certification**

This certification is attached to a substitute specification and replacement sheets for FIGs. 1 – 23 of U.S. Patent Application No. 10/595,904. Upon information and belief, U.S. Patent Application No. 10/595,904 was filed as a national stage entry of International Application No. PCT/JP04/17055 on May 18, 2006. International Patent Application No. PCT/JP04/17055 was filed on November 17, 2004, and was published in the Japanese language as International Patent Publication No. WO 2005/049992 A1 on June 2, 2005.

Upon information and belief, the English language specification and drawings for U.S. Patent Application No. 10/595,904 was mis-copied prior to filing on May 18, 2006, such that certain portions near the bottoms of pages of the specification and drawings were inadvertently omitted from the filed copies of these documents. The current substitute specification and replacement sheets for FIGs. 1 – 23 of U.S. Patent Application No. 10/595,904 respectively reintroduce the portions of the specification and drawings that were omitted.

I, Tomoko Yasukawa, certify that I am proficient in both the Japanese and English languages. I have reviewed the reintroduced portions in the substitute specification and replacement sheets with reference to International Patent Publication No. WO 2005/049992 A1, and certify that the reintroduced portions represent an accurate and faithful rendition of the original Japanese text as reflected in International Patent Publication No. WO 2005/049992 A1 to the best of my knowledge and belief.

By: Tomoko Yasukawa
